

2015 Website Report

The RMLL Executive ratified the SportzSoft quote for the licensing and continuing use of the following SportzSoft products for the 2015 Season:

SportzSoft Admin – overall management of players and bench personnel;
SportzSoft Team Standings/Team Stats – online management of team rosters, player stats and team standings as well as team administration access to teams for Franchise Certificates, rosters, team announcements, events and scheduling input;

SportzSoft Scheduler – input of time slots and development of Division schedules;

SportzSoft Publisher – maintenance of the RMLL website.

The screen used for entering the “live score” was revised for Season. Box scores must be entered within 48 hours of the game being played otherwise a score can not be entered. Using this functionality was mandatory and was utilized by the majority of teams this Season.

For the 2015, we were hoping teams could enter their own stats from the game sheet. However due to changes for other sports, we ran into a few glitches and were unable to have fixed for the 2015 Season. Hopefully we will be able to use for the 2016 Season.

This year we able to enter the coaches listed on the game sheet and are now also able to enter penalties assessed to a coach.

Teams are not entering goalie stats. Hopefully more teams will enter their goalie stats in the 2016 Season.

We now have the option to enter a photo for each player listed on team roster.

Amanda Thielen continued her role as the RMLL Webmaster and support help to the RMLL teams.

For the 2016 Season we are looking at giving the RMLL Home Page a facelift. We will continue to refine and enhance our website with new functionality throughout the 2016 Season.

Christine Thielen
Executive Director, RMLL
